## Preparing for Preschool Reading *scholastic.com*

Preschool teachers develop literacy by continually exposing children to oral and written language, and by building on prior knowledge and language experiences. Pictures, play, and the printed word combine with oral language to help your child understand the symbolic representation that underlies preschool reading and writing. Her teacher will use a variety of fun, engaging strategies in the classroom to develop preschool reading, such as:

- **Reading aloud:** A small group of children cluster around their teacher in the reading corner, listening intently as she reads *The Cat in the Hat*. She holds up the book so they can see the illustrations and talk about them. The teacher asks questions about the story and the children make predictions about what will happen next. By actively participating in the story, children acquire skills that will promote success in preschool reading.
- **Poetry:** Nursery rhymes, songs, and poetry are key parts of preschool reading. Listening to, and repeating, poetry is a wonderful way for children to learn phonemic awareness. That is the ability to notice and isolate the individual sounds, or phonemes, in words, like the "c" in cat or the "b" in bat — a key skill for success in preschool reading. Preschoolers first learn that speech is made up of sounds, syllables, and words indirectly from listening to stories, nursery rhymes, poetry, and conversations.
- **Storytelling:** Listening teaches story structure and helps children learn to predict outcomes. One advantage of storytelling (versus reading aloud from a book) is that you can change the story depending on how the children respond.
- **The printed word:** To understand how print works, preschoolers need to be surrounded by it — in books and magazines, in signs around the classroom, on bulletin boards, in labels on their clothes and possessions. They need to learn that written words correspond to spoken words, that words are composed of letters, and that sentences are made up of words with spaces between the words.
- **The alphabet:** Alphabet books and puzzles help children learn the relationship between sounds and letters, and give them practice recognizing and distinguishing letters.
- **Writing and invented spelling:** Writing is a key part of preschool reading. At preschool, your child will be encouraged to write captions for his pictures, to write stories about what he's drawn, and to tell stories based on his experiences and imagination.
- **Dramatic play:** Children exercise their imaginations, practice their communication skills, and learn the subtleties of spoken language in dramatic play and dress-up games.
- **Computers:** A computer can be an important tool for children in learning to write. Because their small motor control is still developing, preschoolers often find it easier to find the letters they are looking for on the keyboard than to use a pencil to form them.

## What You Can Do To Nurture Empathy In Your Toddler

[www.zerotothree.org](http://www.zerotothree.org)

**Empathize with your child.** Are you feeling scared of that dog? He is a nice dog but he is barking really loud. That can be scary. I will hold you until he walks by.

**Talk about others' feelings.** Kayla is feeling sad because you took her toy car. Please give Kayla back her car and then you choose another one to play with.

**Suggest how children can show empathy.** Let's get Jason some ice for his boo-boo.

**Read stories about feelings.** Some suggestions include:

- I Am Happy: A Touch and Feel Book of Feelings
- How Are You Feeling by Saxton Freymann and Joost Elffers
- Baby Happy Baby Sad by Leslie Patricelli
- When I Am/Cuando Estoy by Gladys Rosa-Mendoza
- My Many Colored Days by Dr. Seuss
- Feelings by Alike
- Baby Faces by DK Publishing
- The Feelings Book by Todd Parr

**Be a role model.** When you have strong, respectful relationships and interact with others in a kind and caring way, your child learns from your example.

Use “I” messages. This type of communication models the importance of self-awareness: I don't like it when you hit me. It hurts.

**Be patient.** Developing empathy takes time. Your child probably won't be a perfectly empathetic being by age three. (There are some teenagers and even adults who haven't mastered this skill completely either!) In fact, a big and very normal part of being a toddler is focusing on me, mine, and I. Remember, empathy is a complex skill and will continue to develop across your child's life
